### AcousticART™ Kanvas, where art and technology meet.

AcousticART™ Kanvas is an innovative new product, it is designed to reduce noise and improve sound clarity in any room of your home. There are over 700 designs to choose from and you can also use your own photographs. We also offer a consultation service ensure you have the best AcousticART™ Kanvas solution.

**Company Name** – Kanvas Interior Art

**Product Name** – AcousticArt™ Kanvas

#### Product Features

- AcousticART™ Kanvas is the clever combination of the fantastic designs from Kanvas and the revolutionary technology of AcousticART™, resulting in an aesthetic solution to noisy areas.
- Ideal for use in kitchens, open plan buildings, restaurants, cafes, music rooms, auditoriums, offices, audio-visual (AV) rooms or home theatres.
- The panel's work by allowing sound waves to pass through acoustically transparent fabric to be absorbed into the high performance acoustic substrate, thus reducing the echo within the room.
- Placing our AcousticART™ Kanvas anywhere will reduce reverb and increase sound clarity and precision, though appropriate sized pieces need to be used to obtain the best effect.
- When used in areas where clarity of sound is important, the sounds become clear and crisp, adding enjoyment to any listening experience.
- The Noise Reduction Coefficient (NRC) of our AcousticART™ Kanvas panels using AV 100 fabric is 0.75; most other acoustic solutions only offer an NRC of 0.54.
- AcousticART™ Kanvas are created on 38mm neo-wraparound frame that is made from finger jointed hoop pine. The pieces are made from fire retardant polyester fabric.
- You may even wish to consider having AcousticART™ panels as sliding window coverings to keep unwanted outside noise, such as vehicle or foot traffic, on the outside!

*Kanvas* interior art

**Designs & Colours** – AcousticART™ Kanvas can be come in any of the 700 Kanvas designs, or it can be created out of your photos or your own design.

**Sizes** – The size of the AcousticArt™ Kanvas you should order depends on a number of factors, including the size of the room, the floor surface, the distance between the floor and the ceiling and the furniture within the room.

It is for this reason we work closely with customers to develop an acoustic solution that fits in with their home, and will be most effective.

**Shipping Details** - We can ship throughout Australia and overseas

**Available to buy online** – No, due to the nature of the product we like to discuss a customer's requirements before hand to ensure it will work for them, though designs are available for viewing online.

**Picture Attached** – No, available on request.

**Price List Attached** – No

### **Company & Contact Details**

Kanvas Interior Art was launched in Perth, Western Australia, in 2002. Its aim was to provide customers with the opportunity to buy high quality, highly fashionable interior art at an affordable price. Over the past few years the Kanvas Interior Art has grown to include 700 designs, as well as providing a customised art service. The Kanvas product range has grown from wall mounted canvases to include AcousticART™, lampshades, wall paper, wall brooches and rugs. All these products can also be custom made to suit an individual's taste.

The Kanvas Interior Art team are built up of a number of art and interior design lovers. Customers include both residential and commercial clients.
